90TH SQUADRON

90TH BOMBARDMENT SQUADRON (I)
3RD AIRBORNE DIVISION (I) F
APO 328

1 August 1946

SUBJECT: Monthly Summary of Events.

TO : Historical Officer, 3rd Airborne Division (I), APO 328.

1. In compliance with Regulation 45-1, Hq. V Bomber Command, APO 704, dated 17 December 1945, the following report is submitted.

2. At the close of the month the personnel in the Headquarters section were:

Captain Glen A. Cooley.....Commanding Officer
1st Lt., Allen Warfield Jr.....Adjutant.
Cpl. Ollie Higgins Jr.....First Sergeant,
Pfc. John L. Dibble.....Clerk.

3. As of the 1st of July 1946, the morning report strength was fourteen officers and fifty enlisted men. During the month we lost four officers and two enlisted men. During the period we gained eight enlisted men making a total strength ten officers and fifty eight enlisted men.

4. We have eight officers and fourteen enlisted men on flying status.

5. The month of July saw the last of the B-24 "Catcher" Squadron removed from the 90th Squadron. A flight of five B-24's lead by Captain Cooley ended a short but colorful era of the 90th being anything but a "win engine" Squadron in World War II. With a minimum number of men crewing the B-24's all the personnel were able to make the last flight to Manila. It was a well earned reward for these men who have put tireless effort and time in keeping airplanes in the skies over Japan when most Groups were going through redeployment pains, and when one would hear the drone of airplanes overhead you could well bet your last yen note that the 90th Bombardment Squadron B-24's were on routine patrol.

6. With most of this personnel, both officers and enlisted men in key positions we are looking forward with great anticipation to our replacements so that this vast experience and knowledge can be installed in the future members of the 90th Squadron.

7. The 90th Squadron area still remains the best region of our AAF and will continue to be second to none.

2nd Lt.	Anapo
F/O	Davis

4. The following gunners became eligible for discharge:
None.

5. Reconnaesance record:

a. Six reconnaesance flights were flown on Northern Honshu, making a total of 20 hours flown on these missions.

b. There were no accedents to flying equipment or personal during this period.

c. All flights were flown at reconnaesance altitude.

6. Training

a. All pilots are fully checked out in the A-26 type aircraft and have all finished their transition course.

b. The varied flights made during the month have been transition, formation, instrument, navigation, and gunnery.

c. This past month, practice search problems, low level formation, and low level navigation has been interodused. All pilots have shown excellent qualification on the four metioned phases of flying training.

d. All pilots, but one have had instrument checks, bringing their instrument cards into a valid state..

7. The squadron as it stands now is composed of category one and two pilots and therefore has the nucleus of a highly effriciect full strenght organization.

8. The B-24 weather aircraft have been transfered out of the squadron making it an attack squadron in all senses of the word.
